Cancer care in Europe: Where are we in 2020?

Introduction to EFPIA's Interactive Cancer Data Comparator

7 October 2020 - 09:00-10:00 CEST

***This virtual event is intended for EFPIA
members-only***

[Register here](#)

Dear members,

As you are aware, EFPIA recently launched its [Interactive Cancer Data Comparator](#). This digital toolkit is based on the [report](#) developed by the Swedish Institute for Health Economics (IHE) and aims to provide a valuable resource platform for the comparison of cancer incidence, mortality, survival and uptake data for 8 tumour types across 31 European countries.

Please join this webinar for a presentation of the rich data included in the Interactive Cancer Comparator and how to best navigate the resources provided in the toolkit.

CANCER SURVIVAL, 5 YEAR, AGE-STANDARDISED, 2000-2007

Variation in 5-year cancer survival persists across Europe. Over 30% more people are alive in Sweden five years following a cancer diagnosis when compared to Bulgaria.

BREAST CANCER SURVIVAL, 5 YEAR AGE STANDARDISED, 1995-2014

In 2010-2014, breast cancer 5-year survival ranged from 74% in Lithuania to 89% in Finland, Iceland, and Sweden. Survival rates between different countries are more uniform than in colon cancer, as 16 countries are in the relatively small range of 85% to 89%.

There is a clear pattern of higher survival rates in

We will also be discussing the communication package the Oncology Platform has developed to support national stakeholder discussions on variation in cancer outcomes across Europe.

Agenda

09.00 – 09.05: Introduction by EFPIA

09.05 – 09.20: Variation in cancer outcomes across Europe – presentation by the Swedish Institute of Health Economics

09.20 – 09.35: Cancer outcomes data at your fingertip – presentation by Incisive Health on how to navigate the Interactive Cancer Data Comparator

09.35 – 09.45: Supporting stakeholder discussion on cancer outcomes at national level – communication package

09.45 – 09.55: Q&A moderated by EFPIA

09.55 – 10.00: Closing remarks

To join the webinar, please register [here](#).

The [EFPIA Oncology Platform](#) brings together 18 companies whose aim is to transform the lives of patients diagnosed with cancer. Together with various stakeholders such as patient organizations, medical societies, civil society and payers we work on projects in Access to Cancer Medicines, Access to Clinical Trials and Oncology Health Data.
