## B20 - G20 DIALOGUE ON WOMEN EMPOWERMENT

Wednesday 28<sup>th</sup> July h. 2.30 - 3.35 pm CEST

### BACKGROUND TO THE EVENT

This event, organised by the B20 Special Initiative on Women Empowerment (SIWE), takes stock of existing gender inequalities to report on the actionable recommendations developed in the course of the B20 Cycle by the SIWE and present in the SIWE Policy Paper.

Three recommendations have been designed to shape strategic dialogue on gender parity and inclusion between Institutions and Stakeholders focusing on three cross-cutting themes; these themes are “Build the relevance and resilience of Women’s Skills”, “Embed a gender lens at the core of innovative activity”, and “Target Gender Parity in Senior Decision-Making Positions”.

Inside the Policy Paper, with the help of our Knowledge Partner Accenture, a total of 3 KPIs is present. These KPIs will be the most important heritage of the SIWE aiming at keeping track of the progress made by countries in Empowering Women.
