MIND

EVENT DESCRIPTION

Federated Innovation @MIND organises the event **"Collaborare per competere, il modello Federated Innovation @MIND per lo sviluppo del sistema Paese"**, the first institutional event of the Network structured with the aim of introducing officially its collaborative model and the activities of the network to national institutions, creating and consolidating relationships in the context of the growth path.

The event, which will be held on Tuesday 7 March from 3.30pm to 6.15pm at Palazzo Wedekind in Rome, will be structured in different sessions, articulated with a view to developing the discussion around the central pivots of the Network's action, emphasising the model's main assets, such as **public-private collaboration** and the **development of innovation initiatives** through **collaboration between different players** to be tested within the MIND District, as strategic assets, even more valuable in the current historical context, to accelerate the translation of ideas into new products, processes and services to be developed in the *Future of Health* and *City of the Future* sphere for the potential benefit of the Country System.

The event will be held in person and in live streaming, will be promoted through the Network's official channels, and will be open to the national press.
